

**The function of geography in the geopolitical puzzle**  
**by**  
**Vassilios Moutsoglou**

"The Function of Geography in the Geopolitical Puzzle" is a multi-tasking work providing Ariadne's clue, leading the reader into the geographical and historical labyrinth of the world. Presently, when the debate on geopolitics gained new resonance, this book emphasizes the self-evident but understated: That the geographical function is the pedestal and the binding framework of the political act geopolitics is the use of the geographical factor in the service of political and state aspirations.
